

JLB-801-X Vertical Wrap Around Labeling Machine

It is an ideal choice for the pharmaceutical, foods, cosmetics, beverages, and daily chemicals industries for automatic labeling onto round containers/bottles.

Features

- Flexible labeling modes, 5 modes in total, suitable for OEM, ODM plant;
- With star wheel system, high precision and stable; high speed, the output is 300bpm;
- The whole frame of the machine adopts SS304, and anodizing aluminum alloy, non-rust; labeling head adopts stainless steel grinding wheel and the structure of dual-leaf roll;
- Equipped with advanced electrical components, like SIEMENS PLC, YASKAWA servo motor, HOLIP transducer, SICK photo electricity, low-pressure Schneider;
- Equipped with brand touch screen, which makes operation convenient and efficient;
- All bottles diameter within 25mm, the mold can be universal, no need to replace;

Technical Parameters

Mode	JLB-801-X
Speed	300 pcs/min
Bottle Diameter	25-100mm
Dimension (Length × Width × Height)	2100mm×1100mm×808 mm
Labeling Precision	±1.0mm
Label Material	Transparent or opaque sticker labels
