

MD-200F Premade Bag Powder Packaging Machine

Applicable to more packaging bags. Self-made bags, pot bags, zipper bags, etc. This type of MD-200F premade pouch packing machine can be equipped with liquid measurement to realize a fully automatic packaging line.

Features

1. The entire machine is designed with stainless steel, made of 304 stainless steel or high-grade plastic.
2. Fully automated and integrated process of loading, measuring, bagging, coding, filling, gas filling (venting), sealing, and finished product output.
3. The touch screen operation is intuitive and easy to adjust intelligently.
4. If the bag opening fails, the subsequent work stations will not unload materials or seal the mouth, avoiding waste of packaging materials and raw materials.
5. The bag width can be quickly adjusted through the handle, which is convenient and trouble-free.

Parameters

Model	MD-200F		
Working Position	8		
Production Efficiency	35-60 bags/min		
Bag Size	L: 100mm-400mm W: 55mm-200mm (customizable)		
Packing Range	10-2500g		
Power Supply	9.8kW/380V	Air Consumption/Pressure	6-8bar/0.6m ³ /min
Machine Dimensions (L.W.H)		Machine Weight	1400kg
