

DKX4540 Automatic Carton Erector and Bottom Sealer Box Sealing Packaging Machine

Vertical storage is adopted for storing carton blanks, for which carton blanks can be added at any time without stopping the machine;

It's suitable for forming and sealing cartons of the same size. If carton size need to be changed, the operator should adjust the machine manually (finishing in 2-3 minutes);

It's rationally designed so that the forming, folding and sealing process are accomplished simultaneously;

All the parts are precise and durable, without causing any vibration in running. Running steadily with long life;

Light in weight, high performance and speed.

Technical parameters:

Model	DKX4540
Carton size	L250-450mm/W150-400mm/H150-400mm
Table height	Min.H600mm Max.H720mm
Speed	8-12 box/min
Dimension	L2075*W1270*H1575-1650mm
Power Supply	220V/380V 50-60HZ
Air source	2/3L 5Kgf/cm ²
Tape	W48mm-W60-75mm*L1000
