

BG32P/60P Automatic Cup Filling and Sealing Machine

BG32P (2 cups)/BG60P (4 cups) automatic cup filling and sealing machine is widely used in filling and sealing various kinds of plastic cups for sticky liquid and paste material.

It can automatically complete the processes of cup-dropping, filling, sealing, film cutting, code printing, sterilizing in ultraviolet radiation and cup-falling in one operation.

P model is especially designed for filling sticky liquid or paste material, such as fruit jam, yoghurt, hot chocolate liquid etc.

The filling unit is also able to improved to fill powder and granule, such as coco powder, baking power, peanut and soybean etc.

- It has function of automatic film position regulation.
- Large power AC motor driving mechanism is adopted.
- For 4 cups model, it can either driven by motor or pneumatic method.
- Cup-dropping and cover-sucking unit adopt pneumatic method.
- Famous brand-OMRON and AirTAC are applied to electric components and pneumatic elements.
- In addition, it can be customized according to your special requirement.

Technical Parameters

Model	BG32P	BG60P
Number of cups	2 cups	4 cups
Power source	220V/380V/50HZ 2.5kw	220V/380V/50HZ 3.5kw
Capacity	30-32 cups/min	60-64 cups/min
Filling range	50-250 ml	
Temperature	0 -300 Centidegree	
Seal material	PE, PP, PET/PE	
Dimension	2150*700* 1650 mm	2360*820* 1650 mm
Weight	440 KG	580 KG
