

Automatic Shrink Tunnel L Sealer Heat Shrink Packaging Machine BTL-450 / 500

Wrapping Shrink Sealing Machine Heat Tunnel is the optimal shrink film applicator for infinite length products. A heated arm is raised and lowered as products pass underneath. Shrink film is then heated and sealed around the product.

1. Automatic shrink packaging machine including L sealer and shrink tunnel which can feed products, seal and cut film and shrink film bag automatically. It is widely used in food, pharmaceutical, stationary, toy, auto parts, cosmetics, printing, hardware, electrical appliances and other industry.
2. Special durable alloyed sealing knife with anti-stick Teflon coats makes sealing strong and has better performance of heat conduction.
3. Only adjust packing width and height by hand wheels without changing any molds and parts when packing size changes. Packing length can be detected by the sensor automatically.
4. Different products with different sizes can be packed together as promotional package.
5. Adopt Omron brand parts such as temperature controller, timer, relay, switch, and sensor.
6. A pair of photoelectric switch in vertical for thin products.
7. Optional closing conveyor for small products.
8. Optional sensor for transparent products.

Parameters:

Model	BTL-450	BM-500
Max. Packing Size	(L+H)≤500 (W+H)≤400 (H)≤200	(L)700x(W)450 x(H)250mm
Max. Sealing Size	(L)550x(W)450mm	(L)1200x(W)500 x(H)300mm
Packing Speed	10-15 packs/min.	0-15 m/min.
Electric Supply & Power	220V/50Hz 1.2 kw	380V/50Hz 12 kw
Air Pressure	6 kg/cm ³	/
Weight	135 kg	260 kg
Overall Dimensions	(L)1550x(W)750 x(H)1050mm	(L)1350x(W)750 x(H)1500mm
