

Single Room Vacuum Sealing Machine DZ-400/DZ-500/DZ-600

The machine is a conventional standard model, it has two different kinds of machine, i.e. the stainless steel manufacture and plastic spraying frame system made, it is been used at home, supermarkets and so on. The following models can be configured, according to user needs (380V or 220V power supply), to achieve the requirements of products, single room open, convenient to move, big vacuum room, good sealing effect, lower energy consumption.

Technical parameters:

Model	DZ-400	DZ-500	DZ-600
Pressure	220V/50HZ	220V/50HZ	220V/50HZ
Power	0.75KW	0.85KW	1.5KW
Pressure	≤0.66KPA	≤0.66KPA	≤0.66KPA
Vacuum chamber effective size	400*320	500*410	600×510×100
Heat seal effective size	400×10	500×10	600×10
Speed	3-4/MIN	3-4/MIN	3-4/MIN
Vacuum chamber	1	1	1
Size	550×500×950	580×640×950	650×700×950
Weight	80kg	80kg	120kg
