

KGF-X Flow-type Liquid Filling Machine

This machine is suitable for filling disinfectant, pesticides, oil, and high-dose beverage.

This machine adopts flow-type filling, PLC control, touch screen operation.

The filling volume can be adjusted easily.

Technical Parameters

Production capacity	Four filling nozzles : 1200 - 2400 bottles/hour
	Eight filling nozzles : 2400 - 4800 bottles/hour
Applied bottle	≥200 ml
Filling accuracy	±1 %
Air consumption	5 m ³ /h
Power	1.5 KW
Power supply	AC,380V/50HZ 3 phase or customization
Overall size	3000 x 900 x 2100 mm
