

## *YC-HM-series Vacuum Homogenous Mixer*

Vacuum Homogeneous Mixer has integrated the functions of vacuuming, heating, cooling and automatic liquid suction together to shorten the operation time, save labor and energy. Raw material through process of pulverization, emulsification, mixing and uniform dispersion becomes high viscous products. By using this homogenous mixer, it only takes a short period time to complete the process. On top of that, its simple and automatic operation makes the homogenization process much easier, faster and effective.

### **Specification**

Model	Full Capacity	Vacuum Pump	Emulsify Motor	Agitator Motor
YC-HM-100	100L	2HP	2HP	1HP
YC-HM-150	150L	2HP	2HP	2HP
YC-HM-200	200L	2HP	2HP	2HP
YC-HM-250	250L	3HP	3HP	2HP
YC-HM-300	300L	3HP	3HP	2HP
YC-HM-500	500L	5HP	5HP	3HP

Model	Dimension (mm)			
	Length	Width	Height	Max.H
YC-HM-100	2000	750	2450	3450
YC-HM-150	2100	800	2500	3500
YC-HM-200	2350	870	2600	3600
YC-HM-250	2400	900	2650	3700
YC-HM-300	2440	930	2700	3800
YC-HM-500	2800	1350	3000	4350
