

DZ-900 Single Chamber Vacuum Packaging Machine for Large Products

Different from double chamber vacuum machine, this vacuum machine has a large single chamber for small to medium production of packing meat products, seafood, medicine, electronic components, hardware, and medical instruments etc. Typically used by small to medium independent processors, Hotels, Restaurants, Institutions, Grocery stores, R & D laboratories.

It's one of the most popular vacuum packers. The machine adopts a stainless steel vacuum chamber and a transparent high-strength plexiglass cover. The whole machine is beautiful and practical, and easy to operate. It is suitable for vacuum packaging of oversized and overlong items in the electronics, chemical, food, marine fishery and other industries. (Special specifications can be customized)

1. It's of premium design, complete functions, stable and reliable performance, wide application range and good sealing strength.
2. Vacuum pumping and sealing are completed at one time, the vacuum degree is precisely controlled by the PLC touch screen, and the vacuum time, sealing time, and cooling time are precisely adjustable.
3. Large vacuum chamber design, can place products that cannot be packed by ordinary small vacuum packaging machine, such as Jinhua ham, big herring and other super long and large products.
4. The whole machine is made of food grade stainless steel, which is easy to clean and corrosion resistant.

Specifications

Model	DZ-900
Sealing Length	600mm×2
Sealing Width	10mm
Chamber	900mm×500mm×100mm
Maximun Vacuum	≤-0.1MPa
Voultage	380V / 50Hz
Power	2.0kW
Dimensions	1130mm×660mm×850mm
Weight	150kg
