

HTH-120G Semi Automatic Rotary Cartoning Machine

The machine is suitable for pharmaceuticals, food, household chemicals, hardware and electrical industries for the packaging of blisters, bottles, vials, pillow packs, toothpaste, etc. It can fold leaflets, open cartons, insert the products and leaflets into cartons, emboss, tuck-in or hot-melt closures and automatically discharge cartons. The machine is equipped with a series of sensors and automatic protective devices to assure the machine runs safely and effectively. It can connect with the Blister Machine, Pillow Packaging Machine, Shrink-Wrapper, etc., to form a Packaging Line. It is the best choice for mass production.

Features

1. Imported components, electric and pneumatic parts.
2. With protection device for cutter installation to avoid being hurt.
3. Easy operation, machine can be used individually and combined with the packaging line.
4. Carton packing machine is used for packaging finished goober in cartons
5. Its small, beautiful, stable, economical and convenient.
6. The machine has the alarm indicated system, automatic stop system when the door opening, these system keep safe for maintenance

Application:

This machine is suitable for blister forming capsules, tablets, foods, toys packages and similar articles. etc .

Technical Data

Weight & Dimensions	
Type	HTH-120G
Dimensions in mm	4200×1350×1900(L×W×H)
Weight in kg	1500KG
Output & Speed	
Steady production speed	30-100cartons/min
Carton	
Grammage	Between(250-450)g/m ²
Box size range	(30-300)*(30-150)*(12-60)mm
Standard power supply	380V / 50Hz three phase
Power consumption in KW	1.5kw
Air consumption	120-160L/min
Compressed Air Pressure	0.5-0.8MPa
Noise	< 80 dB
