

Linear PE Bottle Shrink Film Wrapping Machine MST-500

- With advanced hot cutting and hot sealing technology, perfect seal&package finishing.
- Bottle following up in linear way and increase running efficiency.
- All protect mode alarm and auto stop if jam or barrier, no damaged to the packages.
- Steel chain conveyor and long life and stably running.
- Exclusive patent bottle distribute device, stably running, properly distribute and easy fine correction.
- PID temperature display&control timeing box.

Technical Parameters:

Model	MST-500
Power	3PH 380V/50HZ
Air pressure	≥0.6Mpa
Measurement	9500Lx1080Wx1930H
Max.packing size	450Lx450Wx350H
Output	10-15Pack/Min
Max.sealing Length	700mm
Power consumption	4KW/22-28KW
Table Height	950±50mm
Film type	PE
