

Powder Filling Machine FLG-500A

We are one of the leading manufacturers of auger filling machines which is used for filling all kinds of powder into bottles and pouches. Having a filling range of 50-500 gm, this portable machine is known to deliver an accuracy of ± 1 gm. The powder filled is placed under the nozzle and once the machine presets the amount of water and displays the actual amount of powder on the weighing machine. Ensuring accuracy in powder filled, the container is then removed and the process is repeated till required.

Parameters:

Model	FLG-500A
Voltage (V/Hz)	AC 220/50 110/60
Power (W)	900
Packing Capacity (ml)	50-500
Capacity (bags/min)	40
External Dimensions(L×W×H) (mm)	1030*600*1850
Net Weight (kg)	165
