

VPD250/VPD350 Wet Wipes Packaging Machine

We make design of the machine based on the world advanced paper and nonwoven packaging machinery technology, our wet wipes packaging machine is suitable for the manufacture of moist novettes in any size and Packaging. but, it need to changed the different heater platens for manufacture different size moist novettes, so letting us know which type wet wipes or what's the size of the moist novettes you are preparing to produce.

Feature

1. It is suitable for four-side sealing products of all types wet wipes/tissue, alcohol swabs/pad and so on
2. Double times sealing better to ensure the liquid adding volume and avoid leaking.
3. The language of operate system can be made in your local language as Spanish, French, Korean, Russian, Japanese, Arabic and so on.
4. The full machine is covered with Stainless steel in good appearance, also easy to clear and durable. Low operation and maintenance cost.

Technical Parameters

tem/model		Model:VPD250		Model:VPD350
		For alcohol pad	For wet wipes	
Packaging form		Horizontal Four-side sealing		
Packaging material		CPP,PE,BOPP CPP film,PE film,BOPP film		
Packaging specification	Length	30mm-50mm	50mm-125mm	80mm-175mm(special design max 220mm)
	Width	40mm -110mm		
Maximum packaging dimensions		L50mm×W50mm	L120mm×W110mm	170mm×W110mm
Packaging speed		120-160bags/minute	60-120 bags/minute	60-100 bags/minute
Total power		2.8KW		
Power supply type		220V 50/60Hz		
Machine noise		≤64.9dB(A)		
Air supply		0.6-1.0 MPa		
Air consumption		300-500L/min		
Outline dimensions		L2800×W1080×H1800mm	L2800×W2800×H1800mm	L3000×W2800×H1800mm
Machine weight		1000Kg	1100Kg	1300Kg
