

FXG-6/8B Rotary Automatic Capping Machine

FXG-6/8B rotary automatic capping machines, is in the absorption of foreign advanced technology, based on the ideal of improving the design of the new cap equipment, it has: small size, transmission structure is simple, smooth operation, low noise, using the range, cap rate, handsome in appearance and so on. For pesticides, alcohol, medicine, beverage, chemical industry, glass, polyester bottles, automatic rotary joint sealing work.

Technical parameters:

- ◆ Number of capping heads: 6,8 optional
- ◆ Screw cap fitted range: 50-1000 ml
- ◆ Production capacity: 60-100 bottles / min
- ◆ Cap size: Φ * H 20 * 15-50 * 32 mm
- ◆ Power: 1.5 KW (inorganic speed)
- ◆ Boundary dimension: 900×950×1800 mm
