

## *AL505 Vial Labeling Machine*

AL505 Vial Labeling Machine is specialized in vial labeling or other small round bottles. When labeling, the ampoule will automatically rotate to allow the labeling device to apply the pressure for labeling. Suitable for medicine, food, beverage, and chemical industries. Can be used for plastic, glass, metal and other round containers/bottles. With its innovative design, its operation is so simple that even a primitive man can use.

**Suitable Industry:** Pharmaceutical / Medical, Biotechnology, Food, Beverage, Cosmetic, Chemical, Plastic...etc.

### **Specifications:**

Labeling Speed	Max. 240 bpm
Labeling Drive	5-phase stepper motor
Control Interface	Touch Screen Control Panel
Products Diameter	20~50mm by change part
Core Diameter	76mm (3")
Label Roll O.D.	380mm Max. (15")
Voltage Supply	AC 110/220V 50/60Hz 1Phase
Power	860W
Dimension	(L)2000mm × (W)1960mm × (H)1300mm
Weigh	Approx. 245kg
Material	Frame and main components are made from SUS#304 stainless steel and anodized aluminum.
