

LE-100(CE) Auto Label / Tamper Evidence Applicator

Auto Body Label Sleeve Applicator, LE-100(CE) is designed with SUS frame to match production requirement of Foods & Pharmaceutical industries.

Width working range for easy size change & maintenance.

The L size HMI screen can be saved several memories for easy work. Also, machine could be installed remote control feature to monitor production.

Features

- It is good to fit any shapes of containers. It can be shrunk to fit body well after label applying on container to increase value of products & save labor cost.
- Modularized cutting unit for easy change.
- Servo motor systems are adopted for label feeding & cutter to keep high accurate label cutting.
- HMI + PLC control system are easy operation with many set of memories to help worker save minutes of adjustment.
- Width working range for easy size change & maintenance.
- It is a lower cost system to help small or medium firms easy to step in auto packaging line.
- Machine is designed matching CE certificate, higher safe standard.

Specification

- Machine Dimension: 1485 (L) x 905 (W) x 1540~1960 (H) (m/m)
- Power: 3Ø 220V 50/60HZ
- Max. Speed: 100 (Max. BPM.) Increase or decrease depending on the length of the label.
- Applicable Label Thickness: 0.035 - 0.07 (m/m)
- Applicable Label Lay Flat Width: 40 - 160 (m/m)
- Applicable Label Cut Length: 40 - 200 (m/m)
- Applicable Products Shape: Round, Square, Oval & Others
- Applicable Material: PVC, PET, OPS
