

BHD-240DS Horizontal Duplex Shape Doypack Packing Machine

BHD-240DS Packaging Machinery is specially designed for special-shaped stand-up bags, with double filling station and can package and produce two bags at the same time. The packaging speed is doubled, and the packaging capacity is 1-500ml. It is often used to package juice, enzyme and other liquids, and can also be used to package powder, granules, and viscosity.

Technical Parameters

Model	Pouch Width	Pouch Length	Filling Capacity	Packaging Capacity
BHD-130S	60-130mm	80-190mm	350ml	35-45ppm
BHD-240DS	80-120mm	120-250mm	300ml	70-90ppm

Model	Weight	Powder	Air Consumption	Machine Dimensionsl
BHD-130S	2150kg	6kw	300NL/min	4720mm*1125mm*1550mm
BHD-240DS	2300kg	11KW	400NL/min
