

QZB500 Cut & Fold Wrapping Machine

Features:

- Automatic PLC control.
- Automatic lubrication with shower distribution.
- The lubricant is kept in a removable tray.
- The size changing and operation start-up is very rapidly.
- Replacement of supply paper-wheel is easy.
- Can be combined with the production line.
- It improves efficiency,hygienic.

Technical Parameters:

| Model | QZB-500 |
|---------------------|-----------------------------------|
| Production Capacity | 300~500pcs/min |
| Packing Shape | Rectangle,quare |
| Packing material | Wax paper,cellpane,aluminium film |
| Gross power | 3.55KW |
| Power | 380/50 V/HZ |
| Gross weight | 1350KGS |
| Dimensions | 1450 x1200 x1800mm |
