

Automatic Aluminum Foil Sealing Machine for Bottles MTAS-200

Application

- Automatic Aluminum Foil Sealing for many types of Caps, PE, PP, PET, PS, ABS, Glass and etc
- Widely used in Pharmaceutical, Daily Chemical, Pesticide, Cosmetics, Food, Health Care, Petrochemical Industries.

Spec and Feature

- High Speed Automatic Sealing by Induction, easy to operate
- Air or water cooled
- Height adjustable to match the bottle height strong S/S frame construction to make sure the machine work steadily
- Work independently or connected to a production line

Parameter:

Speed	2400-9000bph
Filling accuracy	>99%
Sealing diameter	16-50mm; 30-80mm; 70-120mm(customizable)
Product height	30-260mm
Power supply	220V 50hz 5kw
Bottles applicable	a wide shape range
Machine size	1800*450*1300mm
