

TB-100 Type Adhesive Labeling Machine

It applies to self-adhesive labeling of cylindrical bottles in alcohol, medicine, beverages, chemicals, pesticides and so on. Host design labeling machines using imported and domestic advanced technology to improve and make a solution for instability of general domestic labeling. By optical fiber computer control, we can get the synchronization track. The output of labels is controlled by a stepper motor or servo motor. It can detect the objects and size of labels automatically. It is modern and advanced electromechanical integration equipment automatically controlled by microcomputer mode, with large LCD touch panel, display and memory devices containing dozens of memory devices. The operation is simple, the labeling is accurate, the performance is reliable, and there is no noise. Sticker labeling machine is easy to clean, not moldy, beautiful after labeling and of high production efficiency. It is strong and won't fall off on its own.

Performance advantages:

- ◆ Control system - with PLC control system to ensure the accuracy of labeling.
- ◆ Operation interface - colorful screen user interface, human-machine interface is simple, safe and reliable
- ◆ Feature Enhancements- with storage memory it can repeatedly call data records.
- ◆ Electrical components - using internationally renowned brands to ensure the equipment is reliable and of high accuracy.
- ◆ Mechanical parts - the main parts of the machine are made of high quality stainless steel 304.
- ◆ Maintenance situations - the machine meets the GMP requirements, easy to disassemble, clean and maintain.
- ◆ Ajustment situation - the whole week and a half week in the round bottle label can be adjusted simply and easy to get.

Technical parameters:

- ◆ Voltage: 220 V/50 Hz
- ◆ Labeling speed: 0-25 m/min
- ◆ Bottle diameter: $\varnothing 30$ - $\varnothing 98$ mm
- ◆ Labeling accuracy: ± 1 mm
- ◆ Total Power: 1.0 kw
- ◆ Dimension: 2000×650×900 mm
- ◆ Weight: 260 kg
