

## *Horizontal Pillow Packing Machine DXDZ-350B/D*

Flow Pack wrapping machines for horizontal form fill and seal, applicable for fresh food and technical products.

It ensures a high tightness of the bag which allows to maintain the contents of the pack isolated from the external environment and enhance the outward appearance, all to maximize the quality and aesthetics of the product.

The flow pack envelopes are used more for confectionery products, technical articles, cosmetics and drugs.

They can be combined with a wide range of feed systems, like finger conveyor chains or infeed belts. It specifically designed for the dairy sector, to obtain pillow-pack style packs from a flat reel of heat/cold sealable wrapping material. Sturdy construction with a carbon steel fabricated frame, compact design, cutting edge hardware, reliable and operator friendly control software are the results achieved in this project, expression of experience achieved in many years of manufacturing of flowpack machines and automated lines. A high quality innovative machine.

**Parameters:**

Model	DXDZ-350B	DXDZ-350D
Voltage (V/Hz)	AC 220/50 220/60	
Power (KW)	2600	
Film Width (mm)	Max.350	
Length of Bag (mm)	65-190or120-280	90-220or150-330
Width of Bag (mm)	50-160	
Height of Product (mm)	Max.40	Max.60
Film Roll Diameter (mm)	Max.320	
Packaging Speed (bags/min)	40-230	
External Dimensions (L×W×H) (mm)	4020×770×1450	
Net Weight (kg)	680	680
Remarks	Fill gas equipment (optional)
