

## Particle Filling Machine BFZZ

BFZZ serial semi-automatic powder & particle filling machine is designed and manufactured which is filled with the packer and adopts the advanced science and hi-tech in our glory.

### Introduction

- BFZZ serial semi-automatic powder & particle filling machine is designed and manufactured which is filled with the packer and adopts the advanced science and hi-tech in our glory.
- Its main characteristic: Of fine qualities, with high efficiency, the appearance is esthetic. Adopt the advanced microelectronics and control, pack the pace and can all be set up automatically and intelligently according to different thickness articles.
- Finish packing the powder & particle. Suitable for packing less than 100 mesh and having powder as tea, coffee, rice, beans, starch, sticks, particle supplies.

### Specifications

Model	BFZZ-1	BFZZ-3	BFZZ-5
Filling weight	10-999G	20-3000G	20-5000G
Scope	Granule/Powder	Granule/Powder	Granule/Powder
Speed	10-30 bags/Min	10-30 bags/Min	10-30 bags/Min
Precision	±2g(basis on different material)	±2g((basis on different material)	±2g((basis on different material)
Bottle height	3-500 (MM)	3-500 (MM)	3-500 (MM)
Bottle dia.	40-500 (MM)	40-500 (MM)	40-500 (MM)
Voltage	220V 50HZ/110V 60HZ	220V 50HZ/110V 60HZ	220V 50HZ/110V 60HZ
Power	200W	200W	200W
Dimension (L x W x H)	53x38x93CM	66x43x108CM	66x43x120CM
Net weight (kg)	27KG	45KG	40KG
