

BHP-210D Horizontal Premade Pouch Packing Machine

BHP-210D is specially designed for small and medium-sized bags. It can pack a variety of bags and has an additional set of work stations. It can pack and produce two bags at the same time, doubling the production capacity. The materials that can be packaged include liquids, powders, granules, and solids. Applications wide range.

Technical Parameters

Model	Pouch Width	Pouch Length	Filling Capacity	Packaging Capacity
BHP-210D	90-210mm	110-300mm	1200ml	80-100ppm
BHP-280D	90-140mm	110-300mm	600ml	80-100ppm
BHP-280DZ	90-140mm	110-300mm	600ml	80-100ppm

Model	Weight	Power	Air Consumption	Machine Dimensions(L*W*H)
BHP-210D	1100kg	4.5kw	200NL/min	3216*1190*1422mm
BHP-280D	2150kg	4.5kw	500NL/min	4300*970*1388mm
BHP-280DZ	2150kg	4.5kw	500NL/min
