

## ***GS-8 Automatic Electronics Capsule Counting Machine***

Machines used for counting capsules, tablets, granules, and other drugs or foods

A counting machine is a machine suitable for industries such as pharmaceuticals, hospitals, and food, used for counting drugs or foods such as capsules, tablets, and granules.

### **Technical Parameters**

Electronic counting machine	parameter
Number of channels of shaking table	8 lanes
Capacity	MAX 4200 capsules/min
Counting range	15-9999 capsule
Granule specification	3-10mm thick; Diameter 3-24mm; Length 3-26mm
Container specification	Height 40-200mm; Diameter 30-80mm
Air source	0.5-0.7Mpa
Air consumption	130L/Min
Power Supply	1P 220V 50HZ
power	1.1KW
Overall dimensions	1400mm(L)*1700mm(W)*1750mm(H)
weight	550KG
