

## *Tea Bags Filling Machine*

This machine is a new type of hot sealing, multi-function, automatic tea bag packaging equipment. The main feature of the machine is that the inner and outer bags are formed in one time, which avoids the direct contact between hands and materials and improves the efficiency. Its inner bag is filter paper. It can automatically take line and label, its outer bag is composite paper, its biggest advantage is: label and outer bag can use photoelectric location; The packaging capacity, inner bag, outer bag and label can be adjusted at will. It can adjust the size of inside and outside bags according to the different needs of users, which in order to achieve the most ideal packaging effect and improve the product appearance grade.

### **Scope of use:**

Scope: It is applicable to tea, medicinal tea, ginseng tea, coffee, Chinese herbal medicine, plants and other filter articles.

### **Features:**

1. This machine is automatic multi-functional tea packaging equipment with a new heat sealing type.
2. The inner and outer bag is formed at the same time, avoid your direct contact with the packing material and improve working efficiency. Inner bag is made of filter paper with thread and tag attached, and outer bag is made of composite paper.
3. The biggest advantage is: tag attaching and outer bag making can adopt photoelectric positioning.
4. Packing capacity, inner bag and outer bag size can be easily adjusted according to different requirements in order to achieve the best packaging results, improve product appearance and enhance the value of the product.

**Technical parameters:**

Packing speed :	30-50 bags/min
Label size:	Width: 45mm length: 20mm
Line length:	155 mm
Inside bag:	Width: 50-80mm Length: 50-80mm
Outer bag:	Width: 70-100mm length: 80-120mm
Power source:	220V 60Hz110V 50HZ 1.18KW
Size :	(L×W×H)1600×700×2000mm
Machine weight:	500Kg
Packing capacity:	1-5g
