

## ***Volumetric Grain Medicine Power Tea Weighing Machine FZ-999***

This product has been excellent engineers carefully study design, the use of microcomputer control of optical technology, high accuracy, fast, good quality, solve the traditional tea packaging tedious process. Automatic dozers several labor equivalent amount of tea production and tea shop is a good helper.

### **Application:**

Suitable for tea, food, food, seeds, fruit, grain shape chemicals and pharmaceuticals, micro and small components such as general non-sticky solid materials.

### **Features:**

- 1: Microcomputer controls self-energy, so that more precise and accurate dispensing, fast, fully automated dispensing process.
- 2: The contact material parts all stainless steel, no contaminated material.
- 3: Double shock structure, the machine is running smoothly, low noise.
- 4: Small size, light weight.
- 5: Minimal power, energy conservation.
- 6: Oblique throwing feeding, do not squeeze the material damage, especially for fragile materials packaging.
- 7: Show Package weight and number of packages.
- 8: Adjustable packing speed.
- 9: Set weighing excessive alarm.
- 10: Stainless steel, never rust.

**Specification:**

- Filling speed: 10-20 times /(depending on materials and different aliquots weight)
- Scope: general particulate material
- Dimensions: 40 × 30 × 96cm
- Power supply: 220V ± 10% 50HZ
- Power: 80W
- Filling Weight: 25-999G (range of different specifications can be customized)
- Filling Accuracy: 0-0 .3 G (depending on material)
- Weight: 65KG
