

## *MIC 32-32-10 Automatic Beer Bottle Filling Machine*

Automatic Beer Bottle Filling Machine is a kind of professional filling machine for Pure beer which applies to PET bottle.

It is made of high quality SUS304 stainless steel. Main components are processed precisely by CNC machine tool. The machine adopts advanced photo electricity to detect running status. No bottle no filling.

Beer Filling Machine/beer Production line Description: DCGF series 3-in-1 beer filling machine is used in the PET bottle. It is combined with bottle washing, filling and capping into one machine.

1. This series of filling machines are used in production of PET bottled carbonated beverage, such as carbonated water, sprite and so on.
2. This series of products are the integrated rinsing, filling and capping machine, suitable for producing various PET bottled carbonated beverage.
3. The main machine adopts advanced PLC control technology.
4. The key electric elements adopt international famous products.
5. We will give you the highest quality and the best service.

## Technical parameter

Washing head	32pieces
Filling head	32pieces
Capping head	10pieces
Volume	0.1-2L
Production capacity	8000-10000 bottle/hr base on 500ml
Suitable bottle height (mm)	60-340
Suitable bottle diameter (mm)	Ø50 - Ø95
Power of main motor (kw)	5.0
Water pressure (Mpa)	0.25-0.3Mpa
Shape dimension	3400mm*2500mm*2300mm
Weight	10000kg
Filling temperature	5 degree
Suitable bottle	PET bottle with crew cap
