

WP-T2000 Tea Bag Machine For Small Business

Products Description

1. When the tea bag machine for small business is working, the various raw materials required for Babao Tea, such as tea leaves, wolfberries, red dates, longans, etc. (or single tea leaves), are first transported to the mixing device (for Babao Tea) through the feeding system according to the preset proportions for full and uniform mixing.
2. Feeding system: It consists of a hopper, a vibrating feeder, a conveyor belt, etc. The hopper is used to store the materials to be packaged, and its capacity can be customized according to production needs; the vibrating feeder allows the materials to flow evenly and stably to the conveyor belt, ensuring the continuity and consistency of material transportation; the conveyor belt is responsible for transporting the materials to the subsequent mixing or metering device.
3. Sealing system: Tea bag machine for small business according to the material of the packaging film and product requirements, various sealing methods can be used, such as heat sealing, cold sealing, ultrasonic sealing, etc.

Products Parameters

| Model | WP-T2000 |
|------------------|--|
| Capacity | 40-60 bags/min |
| Filling range | 1-8g/bag |
| Size | (L)50-80mm(W)140-180mm |
| Voltage | 380V/50Hz/1.2KW |
| Packing material | Nylon mesh, non-woven fabric, corn fiber, and other ultrasonic sealing materials |
| Weight | 400kg |
| Dimension(L*W*H) | 1600*1006*2300mm(L*W*H) |
