

LK-306B High quality automatic powder packaging machine

The powder packaging machine is suitable for quantitative, weighing, sub packaging, filling and packaging of tea, sesame, grain powder, traditional Chinese medicine powder, traditional Chinese medicine meddler, coffee bean coffee powder, flour seasoning powder, pepper powder, chili noodles and other powder materials.

This product has been excellent engineers carefully study design, the use of microcomputer control of optical technology, high accuracy, fast, good quality, solve the traditional tea packaging tedious process. Automatic dosers several labor equivalent amount of tea production and tea shop is a good helper.

Technical Parameters

Product Name	three side sealing packaging machine		
weighing range	1-100g (can be customized)		
Overall size	42x50x145cm		
Packaging speed	5-18/m (Depending on the material)		
body material	stainless steel		
Machine weight	About 55kg		
Bag length	3~16cm	Applicable film width	5~20cm
