

HC-180SP/240SP Horizontal Corner Spout Doypack Packing Machine

This machine can realize the packaging needs of oblique suction nozzle bags, and can also add hanging holes, special shapes, zippers, suction nozzles and other functions, realizing automatic bagging, automatic filling, automatic nozzle addition, automatic nozzle welding, and automatic sealing. It is used in the packaging of salt, lubricating oil, beverages, juice, yogurt, sauces, edible oil, and cleaning series.

Technical parameter:

Model	HC-180SP	HC-240SP
Type of Pouch	Corner Spouted Stand Pouch	
Min. Pouch Size	90×120mm	120×160mm
Max. Pouch Size	180×250mm	240×320mm
Packing Speed	< 50 Pouch per min.	
Packing Station	2	2
Packing Range	Max 1000ml	Max 2000ml
Power	10kw	15kw
Volt	380V 3P 50Hz	
Air Consumption	400L/min	500L/min
Air Pressure	0.7MPa	0.7MPa
Machine Weight	3000kg	3500kg
Machine Dimension	7500*1500*1500mm	9000*1500*1500mm
