

## *V Type Mixer VH-200*

This machine is suitable for pharmacy and other industries, used for mixing the dry granule materials.

This machine adopts manual feed and closed disc valve discharge, which can avoid dust spilling; with unique mixing barrel structure, high efficiency blending, and no dead angle. Using stainless steel material, prevent the mixing materials from being polluted.

The inside and outside of machine are polished. Mixing the materials evenly and apply to a wide range of fields. It also can be equipped with the compulsory mixer, which is according to the users' demand. It is suitable for smaller powder, blocks and the material that contain a certain mixture of water. In addition, the machine is also equipped with a timing device; you can control the material mixing time.

### **Technical Parameter:**

Type	VH-200
Full Volume (L)	200
Max. Charging (L)	80
Feed Port Dia. (mm)	300
Discharge Port Dia. (mm)	100
Rotary Speed (r/min)	15
Outline Dim. (mm)	2000*650*1700
Motor Power (kw)	1.5
Weight (kg)	300
