

SL-125 Semi-automatic Round Bottle Labeling Machine

The machine is applied to the labeling of round bottle containers with small quantities but many varieties, such as glass bottles, plastic bottles, and iron can and so on.

Features

- Adopt imported electromagnetic clutch with high precision.
- The machine shell adopts high class aluminium alloy anodic treatment, the useful time is long.
- Adopt famous factory electric motor to ensure high load and long period operation.
- All parts and standard components are carefully made of stainless steel.
- With PLC control panel, liquid crystal display, the operation is simple and convenient, the function is stable.
- Imported label inspection optical coupler can ensure high precision.
- There is a code printer on the machine, so the machine also can print three lines like the expire date, valid date, batch number etc.

Technical Parameters

Model	SL-125
Power supply	AC220V/50Hz
Power	150W
Label dimension	Maximum:120(W)X400(L)mm Minimum:10(W)X30(L)mm
Round bottle dimension	Maximum:φ125mm Minimum:φ20mm
Label coil dimension	Inside diameter:φ75mm,external diameter:φ300mm
Overall size	580x680x860 mm
Net weight	45kg(including code printer)
