

NBR-450L Sealing Packaging Machine

Automatic large-side sealing and cutting machine can be used for automatic online shrinkage packaging of products, automatic detection of products by photoelectric, automatic feeding or manual feeding mode can be selected, folding film can be used and sealing of other three sides. Thermostatic heating sealing and cutting system can be used for sealing and cutting PE, POF and other industrial standart.

Product Discription:

Power supply	220v 50/60HZ
Power	1.35KW
Max packaging height	140mm
Sealing line size	560x440mm
Productivity	15-30bags/min
Air pressure	0.5Mpa
Oversell size	1750x900x1450mm
Weight	300kg
