

## WP-18-11 Tea Packaging Machine With Label Tag

### Products Description

1. The tea packaging machine with label tag use heat-sealed filter papers and thermoforming and non-heat-sealing methods.
2. The machine can meet the packaging requirements of tea, flower tea, herbal tea, medicinal tea, and tea food.
3. Tea packaging machine with label tag can make tea bags with ropes and labels. The main feature is that it can be formed in one go. The size of both the inner bag and the outer bag can be flexibly adjusted according to customer requirements.
4. Imported ultrasonic sealing and electronic weighing for feeding ensure firm sealing and accurate feeding.
