

SH-FM750F Semi-automatic Servo Volumetric Weighing Bottles Pouches Powder Auger Filling Packing Machine With Screw Feeder

Main Feature

- ▶ Servo-driven auger system ensures accurate and consistent dosing, ideal for a wide range of powder products.
- ▶ Supports both volumetric and optional weighing feedback filling, maintaining filling accuracy even when material density variations.
- ▶ By changing the auger, machine can cover a wide filling range from 5 g to 5000 g, better adapting to diverse production needs.
- ▶ Optional screw feeder enables automatic material supply, improving working efficiency.

Parameter

- Machine model: SH-FM750F
- Machine Supply: 380V 50Hz/60Hz
- Powder: 2.2 KW
- Production Capacity: Based on filling volume
- Filling Volume: 5-50g 50-300g 300-1000g 1000-5000g (Change auger)
- Hopper Size of Filling Machine: 50L
- Hopper Size of Feeding Machine: 150 L
- Feeder Pipe Diameter: 102 mm
- Feeder Ground Height: Customizable
- Number of Filling Heads: 1 head (multiple heads are optional)
- Measurement Error: $\pm 1\%$
- Machine Size: About 2950*1150*2000 mm
