

## Automatic Sealing Machine YKF-9000P

Automatic sealing machine is specially designed for the PET cups box or trays, can do filling, sealing or printing.

Automatic sealing machine uses servo motor driven, touch screen operation panel, famous electric parts, pneumatic parts, with stable function, high automation. Widely used in food, beverage, condiments, dairy industries.

### Configuration:

- The construction is SUS304.
- Controlled by PLC, operation panel is touch screen, Japan brand.
- Sealing heads are stainless steel, high quality long service life.
- Sealing heads driven by air cylinder, strong and good result
- Foil feed by vacuum device, stable quality
- Twice sealing ensure good sealing quality

### Technical Data:

Model	Filling range	Capacity	Gas Consumption	Air Pressure	Supply Power	Weight
YKF-9000P-2	20-500ml	1400-1600pcs/h	>600L/min	0.6-0.8MPa	220V 50Hz	650KG
YKF-9000P-4	20-500ml	2800-3200pcs/h	>800L/min	0.6-0.8MPa	220V 50Hz	900KG
YKF-9000P-6	20-500ml	4200-5000pcs/h	>1000L/min	0.6-0.8MPa	380V 50Hz	1200KG
YKF-9000P-8	20-500ml	5600-6500pcs/h	>1000L/min	0.6-0.8MPa	380V 50Hz	1500KG
