

SED-350SWB-S Automatic Small Cellophane Packing Machine Cellophane Wrapping Machine

This Cosmetic Box Cellophane Packaging Machine's applicable material is cellophane and BOPP coating film, and this machine is general equipment to make 3d packing for different specifications carton or hard side body objects. Its regards mechanical linkage as the main body, adopts stepless frequency control of motor speed and automatic control electrical accessories.

The machine integrating machine, electricity and gas as a whole, has compact structure, beautiful performance, convenient operation and easily maintenance, small volume, light weight and high degree of automation, etc. advantages.

This machine is designed newly and developed on basis of absorbing the Abroad advanced technology which is suitable for wrapping automatically middle and small sized single box. And its package size is bigger than Model BT-2000B's.

Feature

1. For Stable Performance: Dual inverters controller, upgradable PLC system, self-failure diagnosis, double encoder.
2. For Easy Operation: Touch screen monitor, independent temperature PID controller,
3. For Adaptability: one set of machine can be applicate to different kind of product via optional devices, such as air-filling device, feeding line, date printer, etc.
4. The temperature controller adopts digital display temperature controller with built-in PID function. The knife sealing temperature is extremely sensitive and accurate and can be set at will. The sealing knife itself also has an automatic protection function to effectively prevent errors Cut the package.

Product Parameters

Item.No	SED-350SWB-S
Production capacity	15-40(packs/min)
Packing dimensions	(60-280)x(40-140)x(30-80)mm
Power supply	220V 50Hz
Motor Power	0.75Kw
Electric heating	5Kw
Overall dimensions	2300x1000x1650mm
Weight	850kg
