

## *Food Vacuum Packaging Machine HVC-410T/2A*

Here everything is included: A high production output and two seal bars are the main features of the table machine. As the sealing bars are aligned alongside the longitudinal sides of the chamber, this packaging machine is most suitable for packing small products.

When a product is vacuum packed with a vacuum packaging machine, you can rest assured that it is protected from the damaging effects of the outside environment. These industrial-grade vacuum packaging machines are built for rigorous daily use and are designed to produce professional results while speeding up your production line.
