

Stick Packing Machine SL190G

Main Features:

1. Automatic product measuring, feeding, filling, bag forming and data printing, sealing, bag cutting.
2. PLC is combined with touch screen control system, it is easy to setup parameters. Product output and self-diagnostic machine error are directly showed on screen.
3. Motor driven heat sealing film pulling system is reliable and accuracy, it is convenient to adjust bag length.
4. Machine adopts dynamic round knife to cut film, it is flat, no burrs.
5. Machine main material is stainless steel and aluminum alloy.

Application:

It is suitable for liquid, powder and granule product packing in a long narrow bag.

Technical parameters:

Model	SL190G
Bag length (mm)	50-160
Bag width (mm)	16-35
Film width (mm)	Maximum 190
Packing quantity	1-20g
Packing type	Powder, granules, liquid
Production capacity (bag / mini)	25-30 packs / min
Power	220V/1Ph, 50/60HZ / 1.2Kw
Air pressure	6 L/min , 0.6Mbar
Seal form	Backpack bag
