

Round Bottle Labeling Machine

This Round Bottle Labeling Machine is applied to label the self-adhesive label on various round bottles or containers. This machine is widely used in pharmaceutical, foodstuff, beverage, cosmetic, chemical and etc. industries.

Technical Parameters:

Labeling Precision	$\pm 1\text{mm}$
Labeling Speed	2400-6000BPH (related to product size)
Product Size Applicable	$20 \leq \text{Diameter} \leq 80\text{mm}$
Label Size Applicable	$15 \leq \text{Width} \leq 150\text{mm}$, $\text{Length} \geq 20\text{mm}$
Power Supply	220V 50/60HZ, 1KW
Equipment Dimensions	2000*650*1500mm
Weight	250KG
Application Fields	Pharmaceutical, Foodstuff, Beverage, Cosmetic, Chemical, etc.
Above technical parameters for the standard model, if other special requirements and functions can be designed.
