

LB-100 Pressure-Sensitive Adhesive Labeling Machine

Applications:

Labeling machine Application:

- high capacity product of jar, can, tin
- connect with capping machine, labeling machine, coding machine, shrink machine, patelizer etc

Features:

- Servo motor driven label head and control label conveying, label high accuracy.
- Servo motor position, high accuracy position
- Suitable for various container & product shape and size
- Easy connect with filling and second-pack machine

Technical Dates:

Model	LB-100
Bottle diameter	30-100mm
Label max width	190mm (can be raised according to the request)
Capacity	45m/min
Label inner diameter	76.2mm
Label outer diameter	Max.330mm
Voltage	1Phase 220V, 1.2KW
Overall Dimension	2000×700×1400mm
Net Weight	320kg

Jar Tin Samples:
