

Automatic Liquid Sauce Packaging Machine SMBJ-600

Automatic Liquid paste packaging machine adopt high quality 304 stainless steel material, has a good polishing performance, big appearance quality, resistance to corrosion, heat resistance. Comply with the Drug GMP/Food QS regulatory requirements. Easy cleaning, not easy to breed bacteria, can solve the sanitary problems in the production process, the machine can be widely used in liquids such as milk, vinegar, water, juice, beverage and so on similar. Can also fill paste like sauce packaging bag for sauce, tomato sauce, chili sauce, onion oil and so on, the liquid mixed products and so on.

Features:

1. All stainless steel exterior. The touched packing materials is stainless steel 304. Comply with the Drug GMP/Food QS regulatory requirements.
2. The advanced microcomputer controller. All functions are key operation, LCD display, it can be automatic bag-making. electric eye tracking, measuring, filling, sealing and cutting in one process etc.

Specification:

Model	SMBJ-600
Power	320W
Filling range	5-50ML, 25-125ML, 50-200ML
Bag width	100mm,125mm,140mm,160mm,180mm ,200mm
Bag length	16cm max
Packikn speed	20-30bag/min
Filling accuracy	0.2g (depends on product)
Material	Stainless steel
Voltage	220V 50Hz & 110V 60Hz
Machine dimension	50*58*160CM
Weight	80KG
