KD-450 A Automatic Reverse Film Packaging Machine

Apply more material blocks such as betel, olives, candied fruit, Gong date, multiple packet soup, solid dispersing materials, small Electronic components of irregular objects.

Features

Compact structure, stable performance and simple operation. Double frequency control, the bag length is set and cut, no need to adjust the empty walk, one step in place, save time and film. Using imported electrical appliances, touch man-machine interface, convenient parameter setting, fault self diagnosis function, fault display at a glance. High sensitivity photoelectric eye color mark tracking makes the sealing and cutting position more accurate. Temperature independent PID control, better suitable for all kinds of coating materials. Positioning stop function, no sticking knife, no film. Simple rotation system, more reliable work, more convenient maintenance. All the control is realized by software, which is convenient for function adjustment and technology upgrade.

Technical Parameters

Max.film width	450mm
Max packaging capacity(according to its material to fix)	50-180 bags/min
Suitable film thickness	0.03-0.06mm
Length of bags	65-350mm
Packaging width	50-200mm
Packaging height	10-80mm
Total power	2.7Kw 220v 50/60HZ
Overall dimensions (L * W * H)	4100 *1050*1560mm
Weight	680kgs
