

Automatic In-line Catch Cap Machine

It uses PLC programmable control and can store data. The machine is electrically and pneumatically controlled with high stability. It can locate the device, cover it in a standard way, and the operation is very simple. The machine meets GMP standards.

Three Competitive Edges of Our Automatic In-line Catch Cap Machine:

1. It is specially made for screw detergent bottle caps. The replacement of bottle cap is simple, and there is no need to replace parts.
2. It only needs to replace the screw cap. High nut rate, easy operation and maintenance. Very fast.
3. This machine can also be customized for different covers and different needs of customers, such as rotating force, and we also use frequency conversion to adjust the speed of the motor

Technical Parameters

Screw Capping Head	4 Heads
Application Bottle	Various sizes of round bottles, square bottles (barrels), flat bottle (barrels) and shaped bottles (barrels) ,detergents bottle cap
Application Cap Diameter	Φ70—Φ110mm
Production Speed	5000 bottles/hour
Voltage	220v/380v
Power	5.0KW
Work Pressure	0.55Mpa-0.65Mpa
Size	2000mm × 950mm× 2100mm
Weight	500 kg
