

Automatic Granule Packaging Machine HY-QK50

It is suitable for automatic packaging of particles with good fluidity in food, health care and pharmaceutical industries, such as instant coffee, solid beverage, fruit enzyme powder, Baoji pills, white sugar, granules, Chinese medicine granules, etc.

Features

1. Using a rotary cutter to cut, by replacing the blade, the flat mouth and the serrated mouth effect can be realized, and the bag length cutting position is convenient to adjust.
2. Full pneumatic control including metering and bag making, simple operation, less wear parts in the later period, reducing parts replacement.
3. Material: The material contact part is made of SUS304 stainless steel, which meets the requirements of GMP production.
4. The heat-generating parts and moving parts are hidden in the protective cover and are safe to operate.
5. The equipment is equipped with casters for easy handling and movement.

Characteristics:

1. The equipment is easy to operate and easy to maintain.
2. The whole bracket is made of all stainless steel, non-outsourced stainless steel.
3. The equipment is compatible, and different specifications can be realized by changing the mold.
4. Good fluidity materials, no dust, three-side seal design, electric high-speed models, capacity of 120 bags/minute.
5. Auxiliary equipment: loading machine + ribbon coding machine.

Specification:

Model	HY-QK50
Filling range	1-50ml
Sachet size	W: 30-100mm, L: 30-150mm
Max. film width	220mm
Sachet type	3 sides/4 sides
Filling method	Volumetric cups
Control	SIEMENS PLC + TOUCH SCREEEN
Capacity	30-60ppm
Power	220V50-60HZ/1.0KW
Air	0.3m³/min, 0.6-0.8Mpa
Materials	Case and contacting parts SUS304
Dimension (L*W*H)	880*700*1750mm
Weight	250KG
