

## *FKF601 Liquid Filling Machine*

Applied Range: And material contact material imported 304 l material, no particles can be all kinds of corrosive resistant low viscosity fluid, such as: all kinds of reagents (medicine oil, wine, alcohol, eye drops, syrup), chemicals (solvents, acetone), oil (feed oil, essential oils, cosmetics (toner, makeup water, spray), food (high temperature resistant to 100 degrees, such as milk, soy milk), beverages, fruit juice, fruit wine, spices, soy sauce vinegar, sesame oil, etc without granular liquid; High and low foam liquid (nursing liquid, cleaning agent)

Filling of food, medical, cosmetic, chemical and other bottle liquids. Plus: wine, vinegar, soy sauce, oil, Water, etc.

Widely used in food, cosmetic, chemical, pharmaceutical and other industries. It can work alone or connect to production line.

### **Technical Parameters:**

- **Power supply:** 110/220V 50/60Hz 15W
- **Filling range:** 25-250ml
- **Filling speed:** 15-20 bottles/min
- **Working pressure:** 0.6mpa+
- **Material contact material:** 304 stainless steel, Teflon, silica gel
- **Hopper material:** SS304
- **Hopper capacity:** 50L
- **Hopper gross weight:** 6KG
- **Body weight:** 25KG
- **Body size:** 106\*32\*30CM
- **Hopper size:** 45\*45\*45CM
- **Applicable range:** cream/liquid dual use.
