

BRS-4S Rotary Premade Pouch Packing Machine

BRS-4S Rotary Premade Pouch Packing Machine with 4 heads filling nozzle is specially designed for nozzle bags. It can be used as a straight nozzle or an inclined nozzle. It has a unique filling nozzle design, a unique capping system, and a feeding device. The speed can reach 60 bags per minute. It can package jelly, laundry detergent, juice, tomato juice, It can also contain chicken essence and other powders and granules.

Technical Parameters

Model	BRS-4S
Head number	4
Max bag height	250mm
Nozzle diameter	8.5-20mm
Maximum loading	2000ml
Packaging speed	100ml/5200-5500pph
	300ml/4600-4800pph
	500ml/3800-4000pph
Met ering accura cy	<±1.0%
Powder consumption	4.5KW
Gas consumption	400NL/min
Machine Dimensions(L*W*H)	1550*2200*2400mm
