

## *SH-FS250KQ Automatic Vertical VFFS Quantitative Granule Sachet Filling Sealing Packaging Machine*

### **Main Feature**

- ▶ Measuring cup system ensures precise and stable filling of granule products. Cup size can be customized.
- ▶ Heat sealing structure with adjustable temperature supports different sealing styles according to packaging requirements.
- ▶ High-sensitivity sensor accurately detects color marks to control film feeding and cutting.
- ▶ Date coder can be equipped to print production date or batch number on packaging films.

### **Parameter**

- Machine Model: SH-FS250KQ
- Power Supply: 110V/220V 50-60Hz 1.5kW
- Filling Method: Measuring Cups
- Packaging Speed: About 30-50 bags/min (depending on products)
- Bag Size: (L)20-150mm\*(W)25-110mm
- Sealing Types: 3 sides, 4 sides or back side sealing
- Max Film Width: 300mm
- Machine Size: About 630\*930\*1680mm(L\*W\*H)
- Package size: About 1000\*1000\*2000mm(L\*W\*H)
- Package weight: About 350kg
