## *Automatic Powder Packing Machine*

Automatic powder packaging machine is new-updated compact version pouch pick fill seal packing machine for various pre-made bags such as pillow bags, gusset bags, zipper bags etc. As a cost saving solution, it is ideal for a lot of application such as all kinds of powder material like: Tea powder, wheat flour, coffee powder, coco powder etc.

The shape of the packaged product is a flat bag with three or four sides sealed. (Note: The three-side sealing shape is a conventional product, and the four-side sealing shape requires a special custom heat sealing body.)

### **Technical Parameter:**

- Applicable packaging materials: Composite film packaging material
- Packing speed (bag / minute): 40 ~ 60
- Measuring range (ml): 1~80
- Bag size (mm) length: 50 ~ 120 width: 60 ~ 85
- Power supply voltage: Three-phase four-wire system 380V/50Hz
- Power (Kw): 1.72
- Weight (Kg): 215
- Dimensions (mm) 665×770×1640 L\*W\*H: 695x770x1580
