

## ***MIC 12-1 Automatic Beer Canning Machine***

Mic 12-1 automatic beer canning machine adopts isobaric pressure filling system which is applicable for beer (Cold filling temperature at 0-4 degrees Celsius) automatic beer canning machine is in the digestion and absorption of advanced foreign and domestic sealing machine on the basis of independent development of the can filling, sealing unit. Filling and seaming part is the overall designed, in order to ensure that both the absolute synchronization and coordination.

It has the characteristics of filling reposefully, high speed, liquid level control, capping reliably, frequency conversion timing, less material loss. It can equip CIP system according to the customers' request. It is the preferred equipment for the small brewery and medium beverage plant

### **Parameters**

Power	1.1Kw
Filling heads	12piece
Sealing heads	1piece
Production capacity	1000-2000 CPH based on 330ml
Filling temperature	0-4 °C
Filling pressure	Max 5bar/0.5Mpa
Can diameter range	Φ40-90MM
Can height	92-168MM
Dimension	1800*1300*1950mm
Weight	1800Kg
